The BEST Health Plans Network

Members on the Advantage Plus Dental PPO/Indemnity Plans can select any primary care dentist from our Florida-based PPO network, and each family member may choose a different primary care dentist. Because no pre-selection is required at enrollment, members can change dentists without having to call Customer Service.

When members are outside of the CONNECTION Dental network, they can receive care from a DenteMax contracted dentist – truly providing them optimal access through two PPO networks!

Bringing Value by Offering Choice

Dental plans have a high perceived value among employees.* With BEST Health Plans, employer groups as small as 10 employees enrolling can offer the choice of an Advantage Plus PPO/Indemnity dental plan alongside an Advantage Prepaid Dental plan.

Advantage Plus Dental PPO/Indemnity plans only require 20% participation, with a minimum of 5 employees enrolled. Total group participation requires 100% participation for groups with less than 25 employees enrolling, with waivers. Groups with more than 25 employees enrolling require 75% participation.

Employees with other group dental coverage do not count towards participation requirements and dependent participation is not required.
