

Advantage Plus In Network Only Dental PPO Plans

Affordable Dental Care For
Individuals and Families

BEST HEALTH PLANS

The BEST Health Plans Advantage

The Advantage Plus In-Network Only (INO) Dental Plan provides a cost-effective way for you and your family to receive quality dental care that is hassle-free and affordable. The plan works much like a Preferred Provider Option (PPO), except that you must use an in-network provider for your dental services.

Fortunately, with the Advantage Plus INO plan, you will have access to our national PPO network with more than 109,000 access points throughout the United States. You can self-refer to any specialist within the network without needing any preauthorization. Also, there is no need to submit claims for services rendered by an in-network provider.

The Advantage Plus INO Dental plan has a coinsurance based plan design, with a plan deductible, and annual plan maximum. Depending on the plan your organization selected, coverage for adult and child orthodontics may be included at a coinsurance and lifetime orthodontic maximum. There is no coverage for out-of-network treatment with the exception of coverage for emergency palliative relief of pain and orthodontics.

The Advantage Plus INO Dental plan is easy to use, and you can get started by following these steps:

1. Each family member can select his or her own primary care dentist.
2. Once enrolled, call the primary care dentist you or your family member selected and take your BEST Health Plans Dental ID card with you to your office visit.
3. You and your family may receive dental services based on your specific plan design. Our in-network providers have agreed to a maximum allowable charge fee schedule and cannot balance bill you above this negotiated amount.
4. After dental services are rendered, you may later be billed for any amount you are responsible for based on your selected plan design.
5. If you or family members need to see a dental specialist, you can self-refer to a participating specialist of your choice. Or if you like, you can have your general dentist refer you to a specialist participating in our network.

BEST Health Plans is pleased to bring you an affordable yet robust dental plan that will make you smile!
