

# DenteMax

## Your Secondary PPO Network

### More choice and more savings.

BEST Life has partnered with DenteMax to provide you with a secondary PPO network—and bring you more out-of-pocket savings.

When you or a covered dependent require dental care while outside of your primary PPO network's coverage area, you can now get those services covered at in-network benefit levels and negotiated discounts if that dentist is contracted with DenteMax.

### How it works.

The process is simple. You can locate a DenteMax dentist by visiting [www2.dentemax.com](http://www2.dentemax.com). Just call the dentist of your choice and make an appointment. Your dentist or you will submit a claim form to BEST Life, and if the dentist is contracted with DenteMax, our claims system will automatically apply any discounts at your plan's in-network benefit levels.

Your primary network has not changed, this is just an additional service that may help save you money.

### Who is DenteMax?

DenteMax is a national quality network that provides access to over 87,000 locations nationwide. Since 1985, DenteMax has been applying rigorous criteria when credentialing providers for participation, assuring your clients a high-quality dental PPO network.

For information on DenteMax or to locate a dentist in your area, visit [www2.dentemax.com](http://www2.dentemax.com). If you have questions about scheduling appointments with DenteMax dentists, contact their Customer Services Department at 800.752.1547, or email at [customerservices@dentemax.com](mailto:customerservices@dentemax.com).

For questions about your benefits or the status of a claim, please call BEST Life's Customer Service at 800.433.0088, or email at [cs@bestlife.com](mailto:cs@bestlife.com).
