

The Power of Vision

Vision benefits can be inexpensive insurance products that bring great value to employers and employees. With comprehensive vision plans, employees can get affordable eyewear and eye care. And by encouraging employees to get their eyes examined, signs of disease like high blood pressure and diabetes may be caught early and help lower a company's medical costs.

BEST Life offers two new fully comprehensive vision products: our new Vision PPO and our Access Vision Indemnity plans. Both have eyewear and eye exams covered as eligible expenses. Combined with access to retail and private practices, and additional discounts for eyewear and corrective surgery, BEST Life provides two well-rounded vision products with powerful cost-savings features.

✓ BEST LIFE VISION PPO

This vision product has an in-network benefit that includes additional lens options like UV coating, tints, polycarbonates, and scratch-resistance as eligible expenses.

- Administered by EyeMed Vision Care
- Employer-contributory or voluntary
- For groups with 5 or more employees enrolling
- Provides access to over 55,000 eye care providers nationally
- Network includes optometrists, ophthalmologists, opticians, private practices and optical retailers (LensCrafters®, Target Optical®, Sears Opticalsm, JC Penny® Optical and Pearle Vision. locations)
- Materials Only plans available upon request

✓ BEST LIFE ACCESS VISION

We also offer this vision indemnity product for groups who want access to any licensed eye care professional.

- Vision Indemnity – visit any licensed eye care professional
- Medically necessary contacts lenses included as eligible expenses
- Flexible frequency & deductible options
- Can be offered as stand alone or as a rider
- Employer-contributory or voluntary
- Available to groups with 5 or more employees enrolling
- EyeMed discount program included for discounts off of the regular retail price of eyeglasses, contact lenses, sunglasses and corrective surgery
